Summary

Experienced IT professional with over 10 years of hands-on expertise in **system administration**, **cloud infrastructure**, and **DevOps** practices. Proven track record in managing Windows/Linux servers, automating deployments using PowerShell and Bash, and maintaining high-availability web applications on **AWS and Azure**. Adept at optimizing **CI/CD pipelines**, collaborating with cross-functional teams, and supporting academic and enterprise environments with scalable, secure, and efficient IT solutions. Strong communicator with a proactive mindset, excelling in both independent and collaborative roles across time zones.

Relevant Experience for CI/CD & DevOps Role

- Led end-to-end automation and maintenance of **Windows server environments**, ensuring stable and scalable deployments.
- Proficient in scripting with **PowerShell** and **Windows Batch** to automate repetitive tasks and manage configurations efficiently.
- Implemented and optimized application hosting on **Azure and AWS**, aligning with best practices in **CI/CD** and **Infrastructure as Code (IaC)**.
- Hands-on experience in managing build environments and automated workflows, supporting developers with **continuous delivery pipelines**.
- Worked closely with cross-functional teams to troubleshoot deployment issues, improving build reliability and **reducing failure rates**.
- Strong **version control** skills using **Git**, with proven ability to manage and maintain repositories and branching strategies.
- Familiar with **.NET environments** and **Windows Installer** concepts, supporting full lifecycle deployment for both **web and desktop applications**.
- Managed **hybrid infrastructure deployments** with a focus on security, monitoring, and configuration management.
- Excellent **collaboration with remote teams**, supporting University (Manonmaniam Sundaranar University, Rayalaseema University, Tamilnadu Dr.Ambedkar Law University, D.G. Vaishnav College) clients and ensuring 24/7 uptime for hosted university platforms.

Education

M.Tech – Information Communication Technology

Manonmaniam Sundaranar University, Tirunelveli | 2012 – 2014 | GPA: 78.56%

B.Tech – Information Communication Technology

Manonmaniam Sundaranar University, Tirunelveli | 2008 – 2012 | GPA: 74.03%

Professional Experience

Deputy Manager – Windows Server Administrator

Faculty Alliance – Chennai, Tamilnadu | Feb 2019 – Present

- Administered end-to-end management of **application**, **domain**, and **database** servers (Windows 2003–2022).
- Implemented **secure RDP setups** to support **Java-based** development environments.
- **Hosted and maintained university websites** (e.g., Manonmaniam Sundaranar University, Rayalaseema University, Tamilnadu Dr.Ambedkar Law University, D.G. Vaishnav College) on **Azure and AWS** using IIS.
- Overhauled IT operations, including **backup/restoration** systems, **firewall rules**, and email servers.
- Designed and deployed structured cabling and Wi-Fi networks, reducing downtime by 50%.
- Delivered prompt technical solutions to **ensure operational continuity** across IT infrastructure.

Key Achievements:

- Reduced server downtime by 30% through proactive monitoring.
- Achieved 40% cost savings via cloud migration strategies.
- Strengthened data integrity with enhanced backup and antivirus systems.

Research Associate

Jegan Research Associate Pvt Ltd – Tirunelveli, Tamilnadu | Feb 2017 – Aug 2018

- Conducted in-depth IT research and system analysis for process optimization.
- Assisted in deploying reliable and scalable networks with minimal latency.
- Supported continuous improvement initiatives in system architecture.
- System Administrator (Volunteer)

Manonmaniam Sundaranar University – Tirunelveli, Tamilnadu | Sep 2008 – Apr 2014

- Installed and maintained Windows/Linux systems and core networking hardware.
- Led infrastructure projects, including campus-wide cabling and Wi-Fi deployment.
- Provided hands-on support to ensure stable and secure academic IT environments.

Volunteer Experience

Technical Skills

- Server OS: Windows Server 2003–2022
- Cloud Platforms: AWS (EC2, S3, Route 53), IIS Hosting
- Networking: TCP/IP, DHCP, DNS, Structured Cabling, Wireless Networks
- Tools: RDP, VMware, Hyper-V, Active Directory, Windows Admin Center
- Security: Firewalls, Antivirus Systems, Backup & Recovery Solutions

Technical Skills

- 15+ years of progressive IT experience (volunteering + professional).
- Proven track record in reducing costs, improving uptime, and modernizing legacy systems.
- Strong leadership in managing cross-functional IT operations and server infrastructures.

Skills

- Cloud & Hosting: Experience hosting applications and websites on AWS EC2, Azure VM and managing IIS services, and overseeing server environments.
- Scripting & Development: Advanced proficiency in Windows Batch/PowerShell, Shell Scripting (Linux), HTML, JavaScript, CSS, and Java with Selenium for automated testing.
- Network & Server Management: Expertise in LAN/WAN setup, structured cabling, wireless troubleshooting, and firewall management.
- Security & Optimization: Skilled in ethical hacking, virus protection, and securing network infrastructures.
- Certifications: Cisco ID #CSCO12759717, workshops in Ethical Hacking, Networking, and System Administration.

Workshops Attended

- **Ethical Hacking:** Explored techniques for identifying and mitigating security vulnerabilities.
- **Advanced Networking:** Gained hands-on experience in optimizing and securing network infrastructures.
- **Android Development:** Built and managed mobile applications on Android platforms.
- **Blue Eye Technology:** Learned cutting-edge innovations in IT systems.
- **Web Development:** Designed and implemented dynamic web applications.
